

Snowbasin Ski Area

Junior High Fashion Design

Do you remember when you were in Junior High and High School? For some it was like yesterday, for others it was almost 60 years ago. Would you have ever wanted to wear the same thing as

someone else that day? No way!! Would you have ever worn the same outfit more than one day in a row? How about three days in a row without washing? Heck no! Well look at you now. Have you noticed how many others are wearing the same gorgeous outfit as you? An how many days in a row will you be wearing the same thing? We have noticed some volunteers have found ways to be unique. For example, we have seen shirts inside out. Perhaps that extends the wear between washings? Mickey Mouse tags, ribbons on backpacks, Pink Panther hats, shorts, and fluorescent ski boots have also been spotted. We are all volunteers with the same goals for now, but somehow our individuality seems to seep through.

SBA Stats

- Operational for 14 days
- 3,190 staff and volunteers
- Snowbasin came to be known by many as "Snowberia" because of its extreme freezing temperatures, high winds, and unpredictable weather. Despite the reasons behind the nickname, Snowbasin had unbelievably beautiful weather during both the Olympics and Paralympics baffling all the skeptics.

Lost & Found 2/7/02

Are you missing a shoe? Glove? Keys? Or maybe a pair of sunglasses? Come check and see if we have your item in our Lost & Found area in the Human Resources check-in tent. We even have a cell phone that rings every 45 minutes. We were answering it, but it was some guy trying to buy your uniform jacket. So we shut your phone off. (The latest offer was \$725) Come see if we have your missing item and drop off found items here as well. Note: no money has been turned in.

Memorial Services – Lost & Found 2/17/02

(last day of operations)

There are still a large number of unclaimed items in the Lost & Found department. If unclaimed they will be laid to rest.

SBA Phonetic Alphabet

In the VCC we are learning something new everyday. Today we thought we would share some of our newfound knowledge with the rest of the staff here at Snowbasin. In radio communication with military, law enforcement and EMS when spelling a name over the radio they use the phonetic alphabet. You may have heard this before. An example would be; to spell cat you would say Charlie, Alpha, Tango. Here in the VCC we have decided to develop our own phonetic alphabet for the rest of you mates.

A-Aussies	B-Bronze	C-Copper
